

Unzipping Embellishment Files

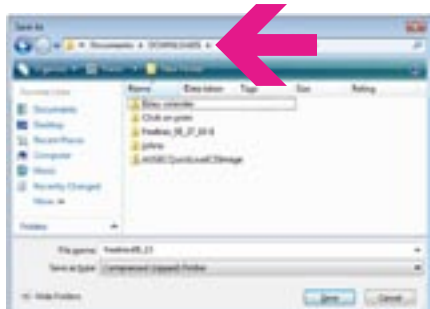

USING WINDOWS VISTA & INTERNET EXPLORER WEB-BROWSER

NB: These instructions are very similar for Windows 7 operating systems.

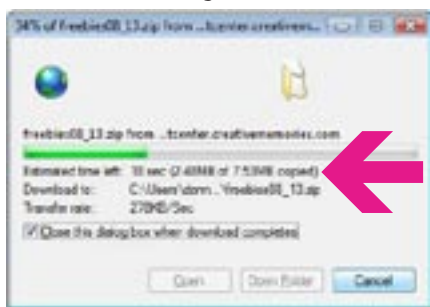

1. Select one of the Freebies packages
2. Click on the download link to get the option to Save the file.

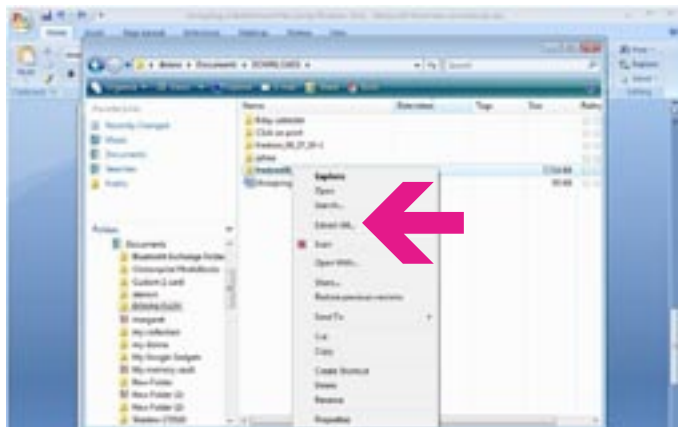

3. Click "Save"
4. A downloads folder is a recommended destination for the unzipped folder containing the files.

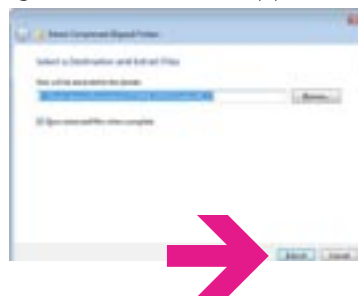

5. Check the size of the unzipped folder is identical to the size when downloading.

6. When finished downloading go to downloaded file.
7. Right click on the Freebies folder and select "Extract All"

8. This dialogue box below will appear.

9. Click "Extract"
10. The embellishment icons should appear as per below. If not select "Views" and then icons.

11. Close.
12. Then follow instructions below for "Importing Embellishments".

IMPORTING EMBELLISHMENTS INTO STORYBOOK CREATOR PLUS 3.0 SOFTWARE

After you have downloaded the embellishments of your choice follow these instructions to import into your StoryBook Creator Plus 3.0 Software.

1. Open StoryBook Creator Plus 3.0 software and select Manage My Content.
2. In the Content panel click the drop-down arrow at My Stuff and select Add a user package to create a location in which to import the embellishment/s you downloaded (If you have not already created one or if you wish to add another package location).
3. Click on the Package you created and click Embellishment on the Content Ribbon (The Get images from folders dialogue box appears).
4. Follow your directory path (left hand panel) to where you saved the embellishment/s and click on those you wish to import. (Select multiple embellishments by holding down the control key on your keyboard).
5. Then click 'Get images'.
6. The embellishments are now available in Content Manager, saved in your selected user package.

USING EMBELLISHMENTS IN YOUR STORYBOOK CREATOR PLUS 3.0 PROJECTS

1. Open your project Click Content (on the tabs panel).
2. Click Embellishments.
3. Select drop down arrow under Package.
4. Scroll to My Stuff and expand.
5. Select your Package and double-click on an embellishment to add to page.
